

Stoneworld 10 Year Quality Assurance

Stoneworld guarantees for 10 years that all first quality tiles we supply will be repaired or replaced when the product is proven and acknowledged to be faulty.

This assurance begins from the date of purchase and does not cover chips or defects that are the result of misuse or abuse and excessive wear and tear. Tiles must be installed in accordance with AS3958.1. Tiles will not be considered defective if they meet the accepted Australian standards or industry standards.
